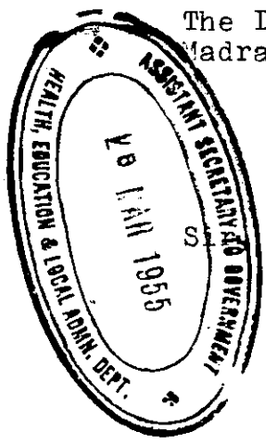
PUBLIC HEALTH DEPARTMENT.

From

The Director of Public Health,
Madras.

To

The Secretary to Government,
Health, Education and Local
Administration Department,
Fort Saint George, MADRAS.



L.Dis.14035-Mal-2-55 dated 21-3-1955.

Sir,

Sub:-MALARIA--South Kanara District--Kasargod Taluk--
Legislative Assembly Question No.3146--Particulars
forwarded.

Ref:-Govt.Memo.No.20357-H.IV/55-1 Health dated 4-3-1955.

The answers to the Question are furnished below:-

a) yes.

b) in the area covered by the following villages:-

1) Panathady.
2) Kodoth.
3) Kuttikol.
4) Bedadka.
5) Maloth
6) Eleri East.
7) Eleri West.
8) Belur I & II.
9) Adhur.
10) Bandadka.
11) Adoor I & II.
12) Karadka.
13) Delampady.

The following information is furnished for answering supplementaries. DDT indoor spraying for the destruction of adult vector mosquitoes, treatment of cases and propaganda are the chief measures adopted. The state of mlaria endemicity in the villages of Kasargod Taluk is rather low at present though malaria was endemic in the South East portions of the taluk and in the neighbouring Sullia area some years ago. The spleen rates in all the villages are below 10 per cent, parasite rates being very low. The vector mosquito density is also low in all the villages.

A scheme for the taluk was sanctioned in April 1954 and has been working since.

Yours faithfully,

22/3

For Director of Public Health, Madras.

CENTRAL DESPATCH BRANCH

Sent by H.E.L.A.U.O.No. 2035. H.IV/55-3, Health. 18-4-1955

H.E.L.A.(H.IV)

NOTE FOR SUPPLEMENTARIES.

A scheme known as the Anti-malarial Scheme, South Kanara District is functioning in South Kanara Dist. Prior to April 1954 the scheme covered three taluks namely Puttur, Karkal and Coondapur. In April 1954 an addition to the scheme, extending it to Kasargod taluk was sanctioned under the National Malaria Control Programme. Control operations are carried on in Kasargod under this scheme in the villages of Panathady, Kodoth, Kuttikol, Bedadka, Maloth, Eleri East, Eleri West, Belur I and II, Adhur, Bandadka, Adoor I and II, Karadka and Delampady. The chief measures adopted are D.D.T. indoor spraying for the destruction of adult vector mosquitos, treatment of cases and propaganda. Malaria endemicy in the taluk is stated to be very low at present.
